

December 9, 2012

Dear State of Alaska,

*How dare you take the life of the demented animal that took the lives of many of our children without us fronting him for his crimes? How dare you allow this despicable beast escape the justice this nations peoples and victims' their rights that we deserve? How dare you allow Keyes self-inflicting death trump our system of justice and let this monster deceive us again and slap us in the face? Alaska is the embodiment of negligence, frontier injustice with a privileged self-indulgent system on the backs of the people in your State.*

*Most Alaskans have no sympathies for us victims and their families of Keyes treachery. You show the rest of the country how backwoods, simple-minded and naïve your State is.*

*I read the comments that validated the peoples behaviors and attitudes in the media; "He got what he deserved;" "Justice is served;" "He (Keyes) saved us a trial and taxpayers dollars;" etc., etc.*

*In his sick mind, the Devil found weakness to exploit us all. Keyes dies with the many victims he killed; taciturnly forever more. But, to espouse simple and ridiculous remarks that justice was done does no justice to you, your State and this nation.*

*The people of Alaska and the victim's families did not have their chance to serve our justice on Keyes. I did not ask the management and workers of your big rich State to kill Keyes. They violated my right to justice.*

*The King and his subjects had no right!*

*Have Alaskans forgotten the meaning of our justice system, the Constitution and the Bill of Rights? The Alaska Department of Corrections denied all of us the right to know where the rest of his victims are and for all of us a closing.*

*I hope you Alaskans can find repentance in your statements and try to get your State to be accountable for allowing Keyes death to happen.*

*We are all victims now!*

*You Alaskans forget when using single-minded platitudes in response to victims family's demise; the death of Koenig's only child, mine and the many others that have not found their justice is self-indulgent.*

*No doubt he was a monster...but of all the people in your State, these remarks like all the others are contradictory to all our beliefs in the Constitutions of all our States and Nation.*

*We the victims across this country do not want to hear your psycho-babble junk of; "What's done is done," It is, what it is;" Let's move forward," etc., etc., only generates more frustration as time goes on and acts obstructionist to getting to the root of problems and issues.*

*To us victim's families it is too much "FEEL GOOD" mumbo jumbo.*

*I will echo the public statements of your States victims' family, Mr. Koenig; "I wanted him to get a complete conviction and get the death penalty." Ms. Shirley Koenig; "I was hoping he would sit in jail the rest of his life thinking about all the horrible things he did to people."*

*And for those in your rich state that are so worried about spending your oil money on a trial and death or imprisonment of this animal you forgot or did not understand, that this was a Federal case warranting the death penalty. Keyes, found guilty would not spend his time in Alaska's DOC at your States expense.*

*Sincerely,*

*The victims and families across this nation*
